

Long Hearing Farm

2023 FARM WALKS

Education for farmers, by farmers

History

WSU Food Systems Program and Tilth Alliance have been collaboratively presenting the Farm Walk Series for over 18 years! These farmer-to-farmer or processor-to-processor educational events are hosted by organic, sustainable, and innovative farm and food businesses throughout Washington State.

About Long Hearing Farm

Long Hearing Farm is a rural worker's co-op and certified organic farm with a commitment to growing food as if the lives of kids in our communities matter.

Our farm is named after my grandma's grandma, Long Hearing Woman. She lived through violence, trauma, and structural racism. In spite of all of that, Long Hearing Woman was the most joyful person--so sweet that her nickname was Peaches! Our co-op is here because we had ancestors who lived with joy, gratitude, care, a commitment to family, integrity and a reciprocal relationship with the land. We are here because we had ancestors that believed in the phrase, "never a failure, always a lesson". Each one of us is still learning how to embrace the complexities of our identities with a sense of play and curiosity. Bringing all of ourselves into the farm's food-growing practices in ways that honor the dignity of our families and communities and the ancestors that we hope someday to become.
